(973) 432-8349

- EDUCATION** Bachelor of Arts, Chemistry  
Reed College, Portland, OR, May 2012
- TECHNOLOGY** FT-NMR, FT-IR, GC-MS, ICP-MS, ICP-OES, Wet Chemistry, Potentiostat, Stepper Repeater (Nikon), CMP Polisher (AMAT), SEM/TEM Metrology
- SOFTWARE** React, React Native, Vue, Angular, Rails, Node, C#, SST, Postgres, MySQL, NoSQL, MongoDB, OAuth, Azure, AWS, Docker, Kubernetes, Jenkins
- EXPERIENCE**
- Software Engineer** October 2025-May 2026  
Beat the Odds, LLC — Remote
- Build new mobile and desktop apps in the Sports Gaming (iGaming) space.
- Software Engineer** Oct 2019-August 2025  
Evanta, A Gartner Company — Portland, OR
- Build and maintain code for API, custom in-house CRM, desktop apps (Vite and React), and mobile apps.
  - Patch vulnerabilities with Snyk and white hat security tools.
  - Rebuilt worldwide badging system from scratch.
- Front End Developer** Mar 2019-July 2019  
M Science — Portland, OR
- Built and maintained components for M Science’s M Data Viz data platform.
- Field Service Engineer** Jan 2018-Oct 2018  
Centrotherm Clean Solutions — Hillsboro, OR
- Supported worldwide sales and service teams in support of installation, start-up, and maintenance of process tools.
  - Built, organized and maintained billing and time-keeping software for American engineering team.
- Technical Consultant** July 2016-Nov 2017  
McCoy Russell LLP — Portland, OR
- Provided technical consultation across a wide range of scientific and engineering fields.
  - Drafted patents and patent-related documents.
- Research and Development Technician** June 2014-July 2016  
Fujimi Corporation — Tualatin, OR
- Collaborate with research groups to develop new chemical-mechanical planarization (CMP) slurries.
- Lab Technician** June 2014-July 2016  
TOK America — Hillsboro, OR
- Design methods for ICP-MS and GC-MS and run routine analyses.
  - Test product performance on stepper repeater tool and metrology.
